

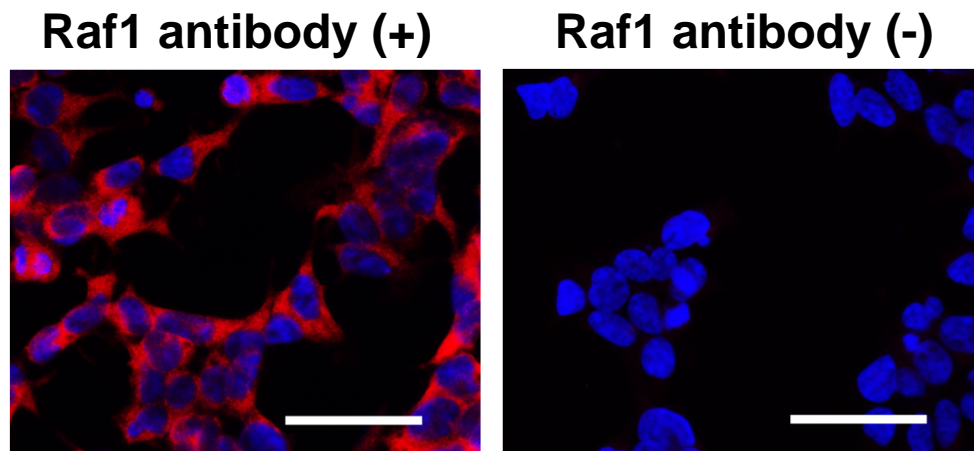

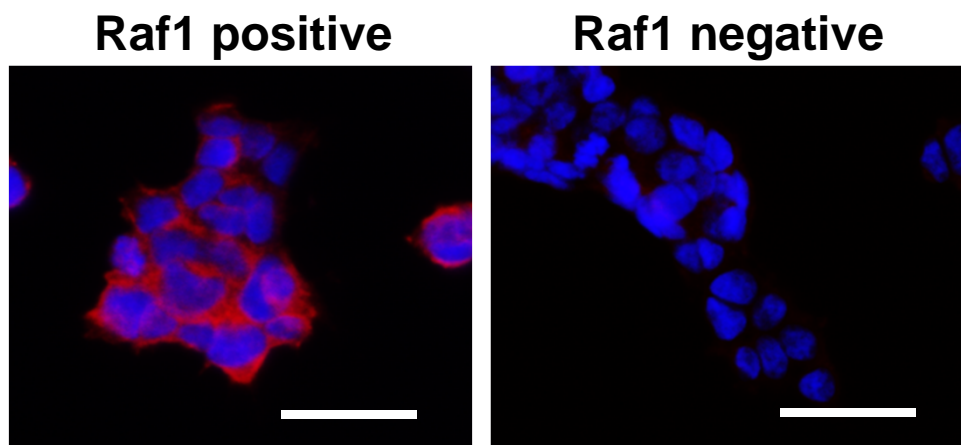

Figure S4

A.

Red: Raf1
Blue: DAPI

B.

Red: Raf1
Blue: DAPI

Figure S4. Validation of Raf1 antibody for immunofluorescence

(A) Immunofluorescence of HEK cells using a Raf1 primary antibody (BD 610151) (left, +) or no Raf1 primary antibody (right, -). Both samples exposed to secondary antibody tagged with Alexa Fluor 594. Red- Raf1, Blue- DAPI. Scale bars, 50 μ m. (B) Raf1 immunofluorescence in HAP1 cells that express Raf1 (left, Raf1 positive) or are deficient in Raf1 (right, Raf1 negative). Blue- DAPI. Scale bars, 25 μ m.
