

Supplemental Material

Prioritizing Symptoms of ESKD Patients Receiving In-Center Hemodialysis for the Development of Therapeutic Interventions

**January 8-10, 2018
Capital Hilton
1001 16th St NW
Washington, DC 20026**

Supplemental Table 1. Stakeholder meeting participants.

Name	Affiliation	Stakeholder Position
Emaad Abdel-Rahman*	University of Virginia	Nephrologist, Patient
Deborah Benner	DaVita, Inc.	Dialysis Organization Representative
Daniel Cukor	SUNY Downstate Medical Center	Psychologist, Research Content Expert
Lamer Davis	Baltimore, MD	Care Partner
Jennifer Flythe*	University of North Carolina at Chapel Hill	Nephrologist
Jon Friedman	Optum	Payer Representative
Tony Houston	Baltimore, MD	Patient
Paris Jackson	Baltimore, MD	Patient
Manisha Jhamb	University of Pittsburgh	Nephrologist
Kirsten Johansen	University of California at San Francisco	Nephrologist
James Kochert	Washington, DC	Patient
Marta Novak	University of Toronto	Psychiatrist, Research Content Expert
Dugan Maddux	Fresenius Medical Care- North America	Dialysis Organization Representative, Nephrologist
Rajnish Mehrotra*	University of Washington	Nephrologist
Klemens Meyer	Tufts University Dialysis Clinic, Inc.	Nephrologist, Dialysis Organization Representative
Amy Barton Pai*	University of Michigan	Clinical Pharmacist
Nikunj Patel	U.S. Food and Drug Administration (FDA)	Government
Matthew Rivara*	University of Washington	Nephrologist
Jesse Roach	Centers for Medicare & Medicaid Services (CMS)	Government, Payer Representative
Wendy L. St. Peter*	University of Minnesota	Clinical Pharmacist
Steven D. Weisbord*	University of Pittsburgh	Nephrologist
Caroline Wilkie*	Punta Gorda, FL	Patient

Supplemental Figure 1. Process for developing symptom-specific action plans for insomnia, cramping and fatigue.

During the stakeholder meeting, participants developed Action Plans for each of the three prioritized physical symptoms. The process of Action Plan development included a targeted environmental scan, engagement of symptom experts and dialysis stakeholders, and participant discussions about existing treatments, knowledge gaps, barriers to innovation and opportunities for the development of new therapeutic approaches.
