

Extended data Figure 2-2. M/T cells responsive to changes in odor concentration.

A. Example of $-\Delta C_t$ response. Raster and PSTH plots of M/T cell response to static high concentration (orange), static low concentration (blue), low to high (purple) and high to low (black). Bar graph on right shows peak response amplitudes on the third sniff cycle for each stimulus. Error bars indicate standard deviation. **B.** Example of cell-odor pair responsive to both $+\Delta C_t$ and $-\Delta C_t$ stimulation.
