

Kocbek et al. Maximizing interpretability and cost-effectiveness of Surgical Site Infection (SSI) predictive models using feature-specific regularized logistic regression on preoperative temporal data. *Computational and Mathematical Methods in Medicine*, 2019.

## Supplementary Materials

Table S1: Blood test prices for 14 most frequent tests over a 30-day period before surgery

<b>Blood test</b>	<b>Price [Norwegian krone]</b>
Hemoglobin*	16.39
Leukocytes*	
Trombocytes*	
Amylase	13.72
CRP	10.94
Albumin	7.22
Kreatinin	7.16
Glukose	6.99
Bilirubin	6.63
ASAT	6.58
ALAT	6.55
ALP	6.38
Natrium	6.33
Kalium	6.22
