

# Plastics in sea surface waters around the Antarctic Peninsula

Ana Luzia de F. Lacerda\*, Lucas dos S. Rodrigues, Erik van Sebille, Fábio L. Rodrigues, Lourenço Ribeiro, Eduardo R. Secchi, Felipe Kessler, Maíra C. Proietti

## Supplementary Information

Figure S1. Linear regression between the abundance of plastics at each sampling point and sea state (a), wind speed (b) and local depth (c); no statistically significant correlation was observed ( $p > 0.05$ ).
