Andrew et al.—Applications in Plant Sciences 2019 7(3)—Data Supplement S8 DOI

APPENDIX S8. Collinearity correlations, here including easting and northing, between the remaining covariates selected for the final consensus regression model, for saprotrophic fungi. See Methods for further details.

	UTM easting	UTM northing	MeanTemp bio1	AnnualTempRange bio7	NDVI MeanAnnual	NOy AnnualMax	PrecipCollectionDay	PrecipSeasonality bio15
UTM easting	100							
UTM northing	-29	100						
MeanTemp bio1	-30	-41	100					
AnnualTempRange bio7	88	-40	-34	100				
NDVI MeanAnnual	-17	-49	58		100			
NOy AnnualMax	46	-65	31	48	37	100		
PrecipCollectionDay	-25		-18	-24	-17	-42	100	
PrecipSeasonality bio15	41		-46	44	-28	-21	22	100
