

Table S2. Gas flow adjustment according to the temperature inside the quartz tube in order to maintain a constant residence time.

T (°C)	Adjusted flow rate (mL/min)
78.8	488.6
149.5	385.3
256.1	318.1
359	270.8
460	235.8
564.8	208.8
672	187.3
