

Table S2: Phenotype records for CxC and CxNC matings (TNB: total number born, NBA: number born alive, NSB: number stillborn, MUM: number mummified). The number of mummified piglets is not recorded on every farm, resulting in fewer phenotype records.

Hap.	# CxC (TNB/NBA/NSB)	# CxC (MUM)	#CxNC (TNB/NBA/NSB)	#CxNC (MUM)
LA1	297	106	2,350	778
LA2	127	49	1,527	513
LA3	30	11	872	294
LA4	29	5	950	300
DU1	21	1	293	37
