

**Table S17: Litter information for purebred and crossbred litters in the Landrace population.** Table provides the number of records, the average, and standard deviation (stdev) within each of the two mating classes.

	<b>#Number of records</b>	<b>#Average</b>	<b>#Stdev</b>
<b>Landrace purebred matings</b>	23,132	14.176	3.499
<b>Landrace crossbred litters*</b>	58,027	14.381	3.595

\* The landrace sow is mated with a Large White boar.
