

Data Sharing Statement

Reardon. Two-Year Outcomes After Transcatheter Aortic Valve Replacement With Mechanical vs Self-expanding Valves. *JAMA Cardiol.* Published February 27, 2019. 10.1001/jamacardio.2019.0091

Data

Data available: Yes

Data types: Other (please specify)

Additional Information: The data and study protocol for this clinical trial may be made available to other researchers in accordance with the Boston Scientific Data Sharing Policy.

How to access data: <http://www.bostonscientific.com/en-US/data-sharing-requests.html>

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: The data will be made available through this portal: <http://www.bostonscientific.com/en-US/data-sharing-requests.html>

Types of analyses: In response to requests for clinical trial patient-level data with scientific merit and intent, Boston Scientific may share validated, anonymized patient-level data from registered clinical trials with qualified healthcare practitioners or academic researchers

Mechanisms of data availability: In response to a formal clinical research proposal, and when the request is in the same therapeutic area as the original study, and when the scientific intent of the request is clear.
