

S1 Table. Frameworks for assessing extent of integration considered.

Model	Major components
Valentijn, 2017 [1]	Clinical integration Functional integration Normative integration Organisational integration Professional integration System integration Assessed for: Population based care, Person-focused care, Population based care At levels: micro, meso, macro
Atun et al, 2010 [2]	Stewardship and governance Financing Planning Service delivery Monitoring and evaluation Demand generation
Curry and Ham, 2010 [3]	Level of integration: Macro; Meso; Micro
Fulop et al, 2005 [4]	Clinical integration Functional integration Normative integration Organisational integration Service integration Systemic integration
Contandriopoulos et al, 2003 [5]	Care integration Clinical team Functional integration Normative integration Systemic integration
Shortell, 2000 [6]	Clinical integration - micro level (continuity, co-operation and coherence in the primary process of care delivery to individual patients) Functional integration - macro level (financing, regulation) Organisational integration - meso level (mergers, contracting or strategic alliances) Professional integration - meso level (mergers, strategic alliances between health care professionals).
