

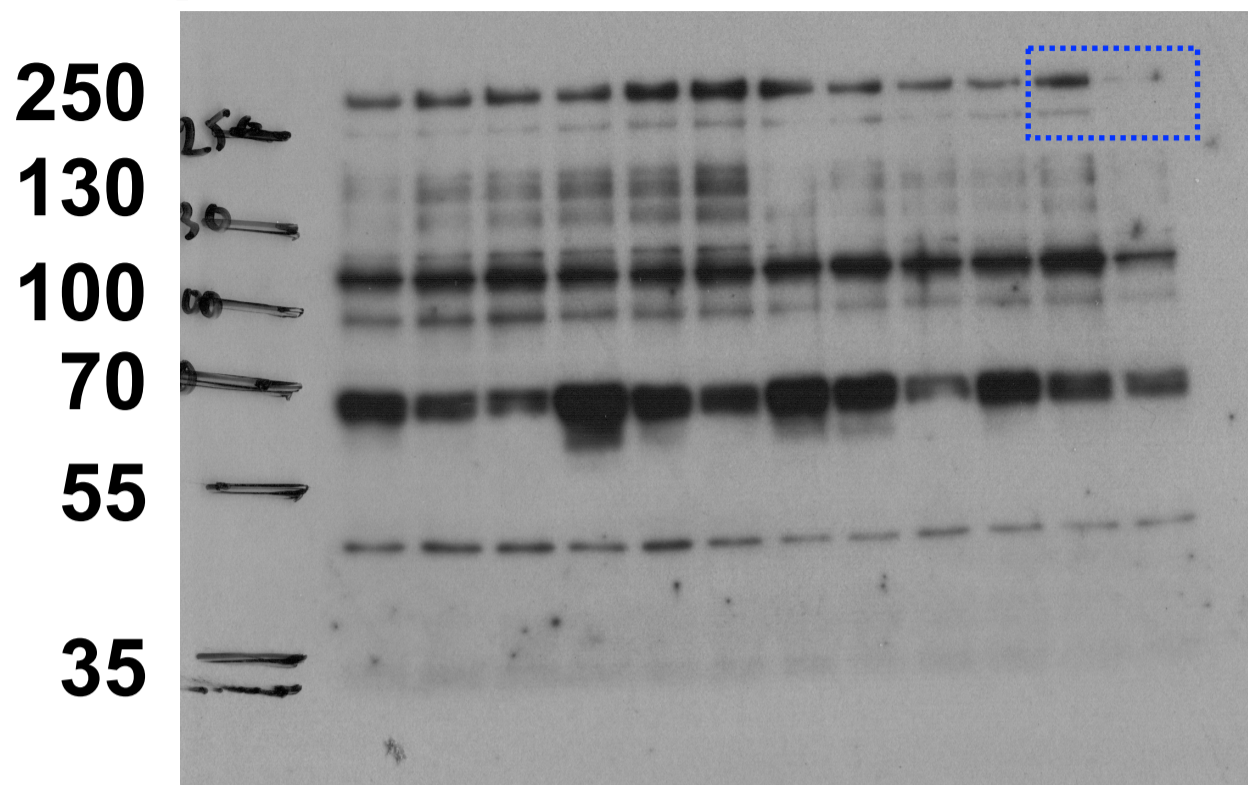

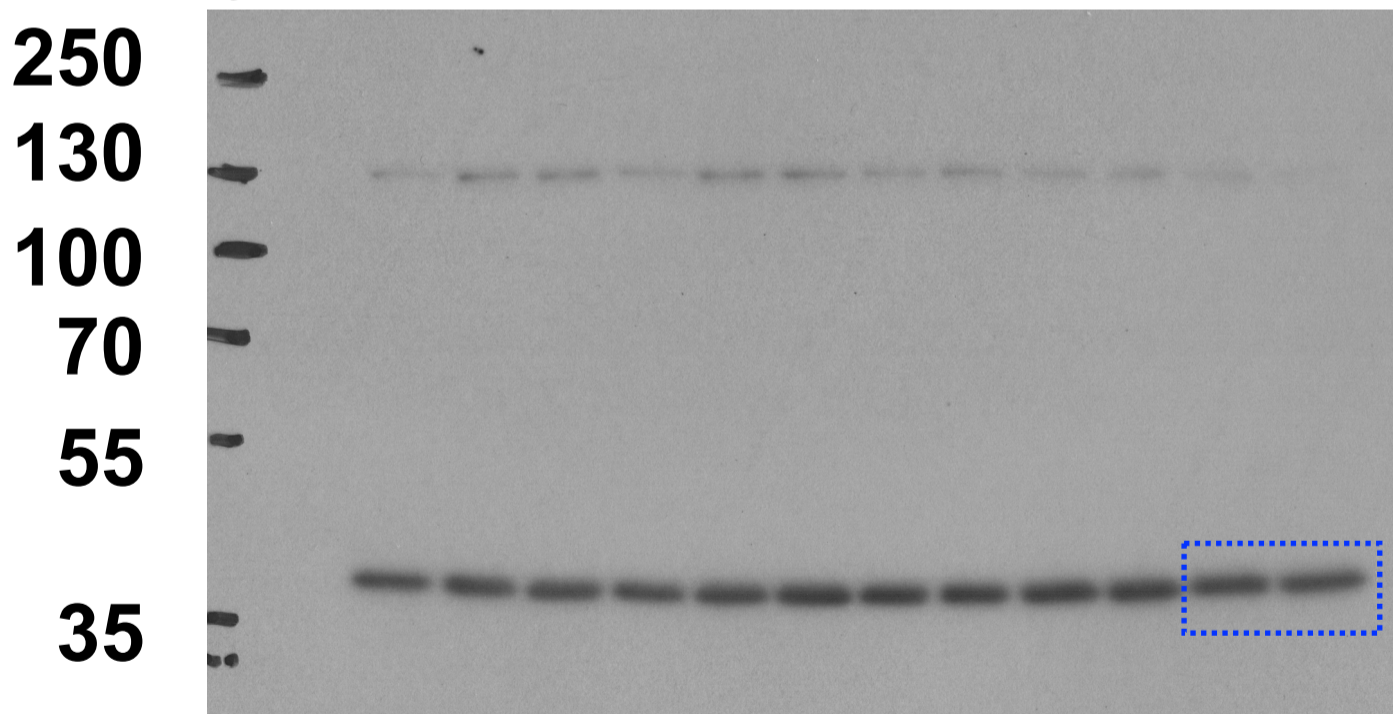

Fig. 3B source data

p300

GAPDH

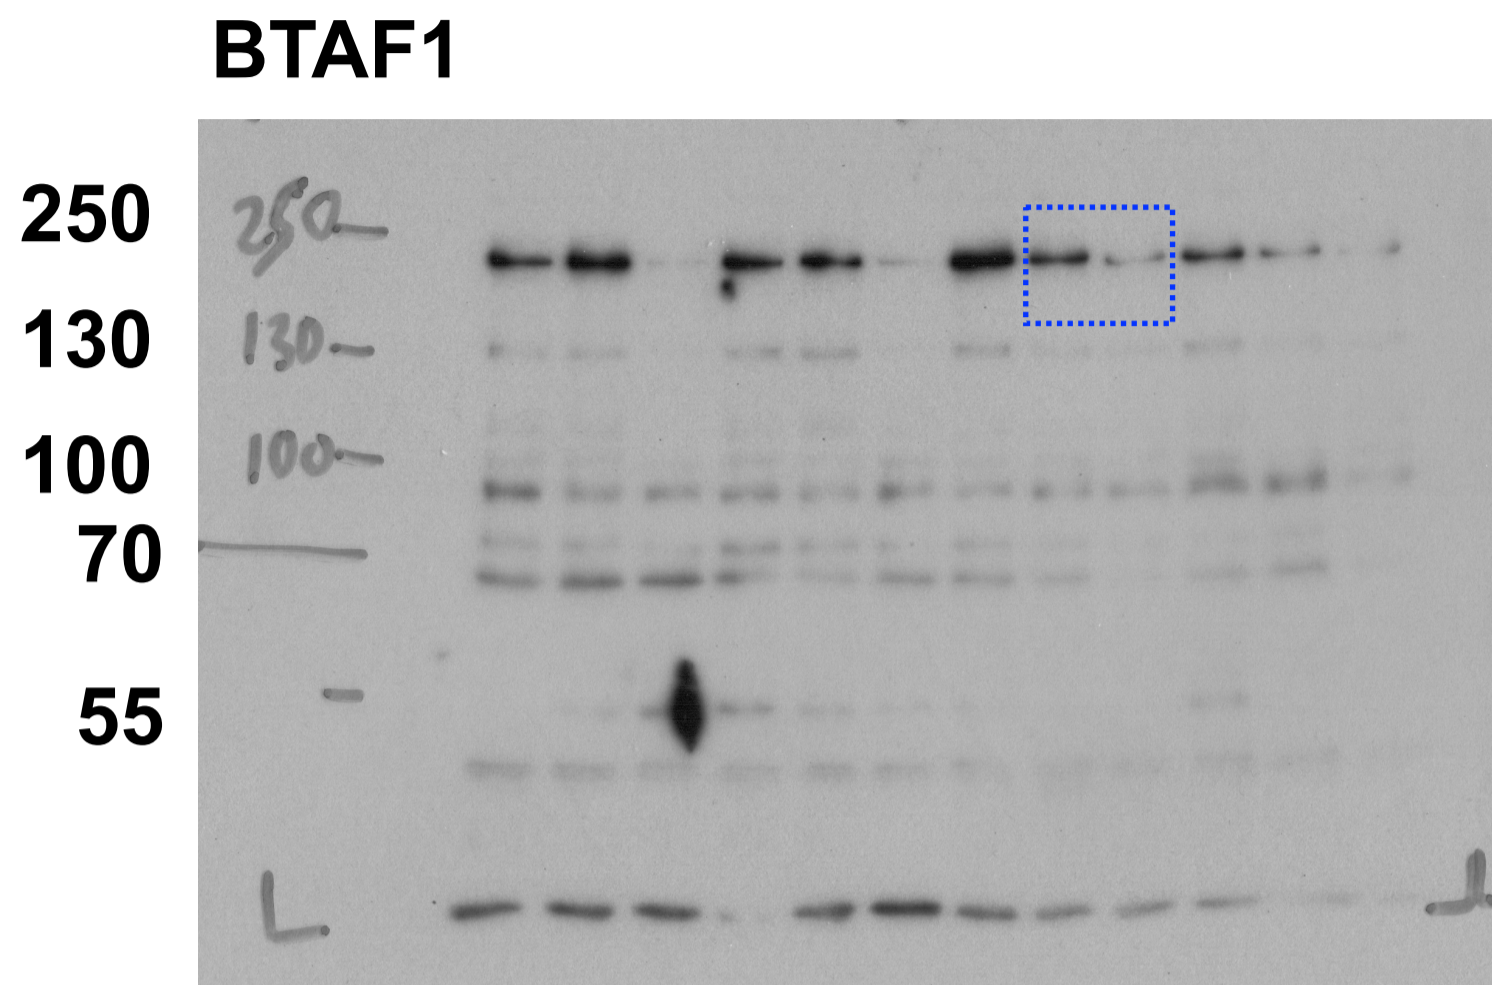

Data imaged with Xographer and film

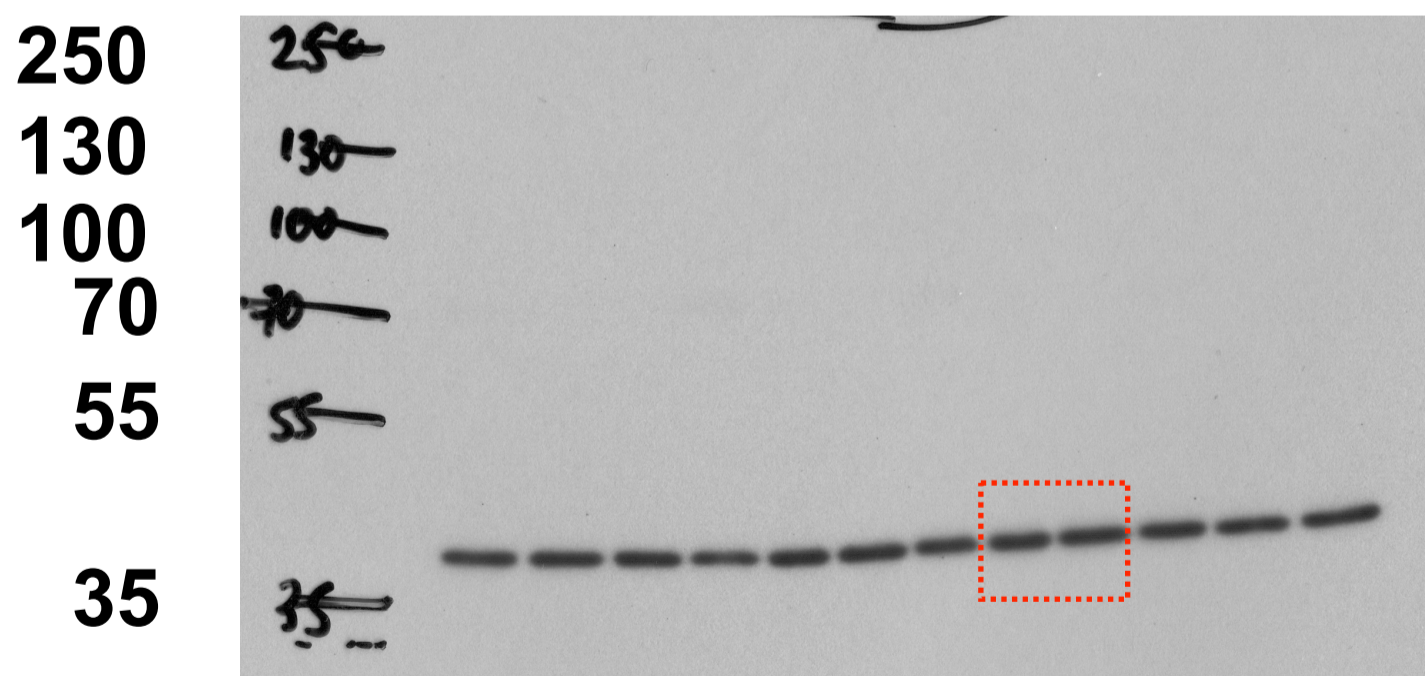

MW markers visible are Thermo
PageRuler Plus Prestained protein
ladder (ThermoFischer)

Boxes indicate data shown on Fig. 3B

Fig. 3B source data cont

GAPDH (control for BTA1 blot, not shown)

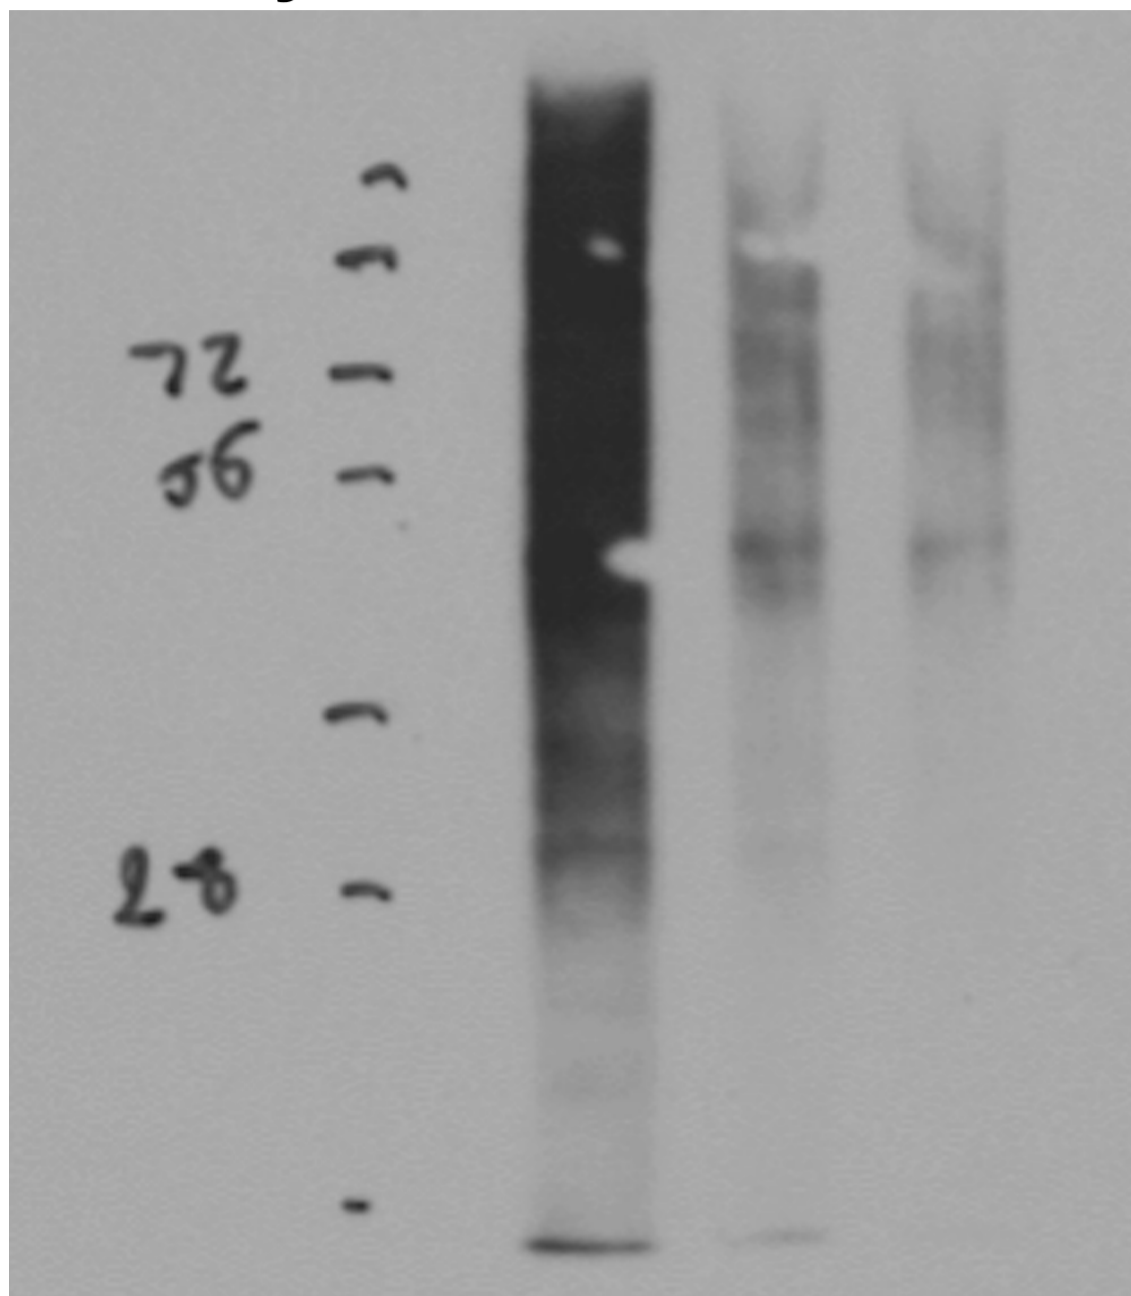

Data imaged with Xographer and film

MW markers visible are Thermo
PageRuler Plus Prestained protein
ladder (ThermoFischer)

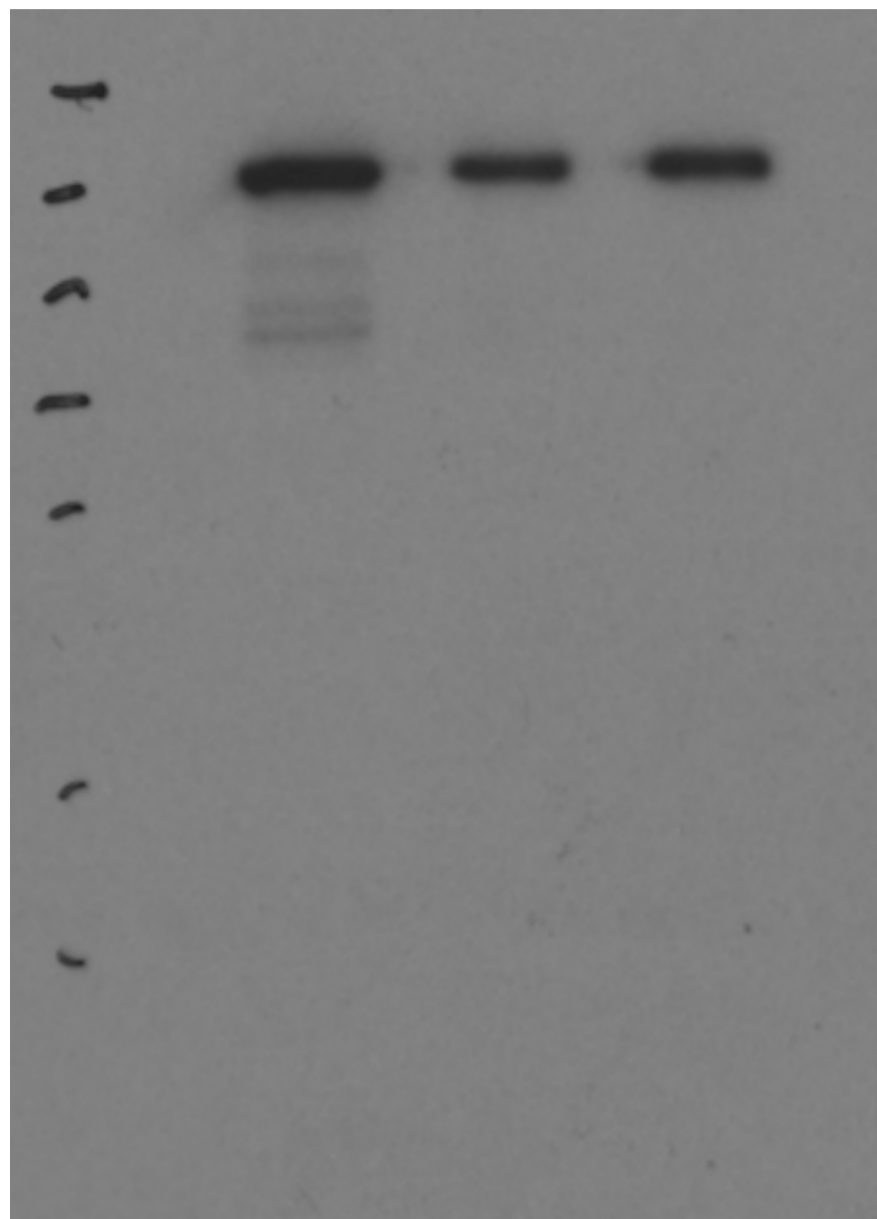

Blue box indicates data shown on Fig.
3B. Red box indicates Gapdh control for
the BTA1 blot but is not shown on Fig
3B.

Fig. 3F source data

Puromycin

Tubulin

Data imaged with Xographer and film

MW markers visible are Thermo PageRuler Plus Prestained protein ladder (ThermoFischer)
