Dear Editors of Circulation Research,

I am writing to confirm my acceptance of the acknowledgment as outlined by Dr. Glembotski in the below message.

Sincerely,

Gökhan Hotamisligil

Dear Gokhan,

Thank you again for generously allowing us to use your ATF6^{fl/fl} mice.

I'm happy to say that the paper has been conditionally accepted in Circulation Research.

One of the conditions for final acceptance is the following:

- All persons acknowledged by name in the manuscript must send an email to CircRes@circresearch.org citing their permission to be acknowledged.

So, assuming you agree to be acknowledged for letting us use your mice, if would be so kind as to forward this message to the e-mail address above stating your agreement, we would very much appreciate it. If you do agree with with this, can you **please copy me on your message to the journal** to make sure I am apprised of your response?
