

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: The list of H3K27ac peaks

File Name: Supplementary Data 2

Description: H3K27ac dynamics during flower development

File Name: Supplementary Data 3

Description: The list of DHS-predicted intergenic enhancers

File Name: Supplementary Data 4

Description: Enhancer validation by GUS experiments

File Name: Supplementary Data 5

Description: Enhancer dynamics during flower development

File Name: Supplementary Data 6

Description: The list of intragenic enhancers

File Name: Supplementary Data 7

Description: The list of enhancer clusters
