Dear Editor,

A few days ago I sent an email with questions regarding our resubmission. Maybe you replied and I didn't receive the email? If yes maybe you can resend the email and cc [Frieder.Schlunk@charite.de](mailto:Frieder.Schlunk@charite.de)?

Thank you very much! Frieder Schlunk

Dear Dr. Schlunk,  
 Where your questions regarding the deceased author? Here is what I sent on 12/4:

We will allow you to submit the revision, however please be aware that the issue is just being delayed. You will need to provide some proof from a legal representative or next of kin of the deceased author that they approve of the manuscript and will sign the publication forms. You may be able to check with MGH's Human Resources (via your Research Administrator) as they would likely have a point of contact. You might ask HR to send a letter to the family on your behalf.

As a last resort, perhaps there is something in writing from the institution that may be able to be used in place of a legal representative? The Scientific Publication Committee would need to approve this document. Do you have copies of emails sent or some other document attesting to the steps taken that include Dr. Arbel? AHA might want proof of a good faith effort to contact Dr. Arbel's family. Don't send anything yet; you should discuss the matter with your research administrator first to see if he or she could provide some documentation.

Please note, Dr. Frosch has not completed the copyright form. Once he completes it, please inform us and we can override the 2 forms for Michal Arbel to allow you to submit the revision.

Thank you,  
 Pamela Lepkowski

Hi

Yes, that is the way to go.

However, ask him to double check the files. The ms file that is converted to PDF seems to be from 07/23/2018 (first version) and I don't see a visual abstract.

He can make the tracked changes version the Manuscript File (so that it will convert to PDF) if that is easier, but we don't want the original ms shown in the r1 version.

Cheers,

Rebecca

Dear Dr. Schlunk,  
 Thank you for letting us know. I have marked the forms complete for Dr. Dr. Arbel (for now).

Please double check the files. The manuscript file that is converted to PDF seems to be from 07/23/2018 (first version) and I don't see a visual abstract uploaded. Those 2 items I could quickly identify. I did not go thru your whole submission.

You may make the tracked changes version the Manuscript File (so that it will convert to PDF) if that is easier, but we don't want the original ms shown in the r1 version.

Please let me know if you have any further questions.  
 Thank you,  
 Pamela Lepkowski

Dear Dr. Schlunk,  
Where your questions regarding the deceased author? Here is what I sent on 12/4:

We will allow you to submit the revision, however please be aware that the issue is just being delayed. You will need to provide some proof from a legal representative or next of kin of the deceased author that they approve of the manuscript and will sign the publication forms. You may be able to check with MGH's Human Resources (via your Research Administrator) as they would likely have a point of contact. You might ask HR to send a letter to the family on your behalf.

As a last resort, perhaps there is something in writing from the institution that may be able to be used in place of a legal representative? The Scientific Publication Committee would need to approve this document. Do you have copies of emails sent or some other document attesting to the steps taken that include Dr. Arbel? AHA might want proof of a good faith effort to contact Dr. Arbel's family. Don't send anything yet; you should discuss the matter with your research administrator first to see if he or she could provide some documentation.

Please note, Dr. Frosch has not completed the copyright form. Once he completes it, please inform us and we can override the 2 forms for Michal Arbel to allow you to submit the revision.

Thank you,

Hi

Yes, that is the way to go.

However, ask him to double check the files. The ms file that is converted to PDF seems to be from 07/23/2018 (first version) and I don't see a visual abstract.

He can make the tracked changes version the Manuscript File (so that it will convert to PDF) if that is easier, but we don't want the original ms shown in the r1 version.

Cheers,

Rebecca

Dear Pamela Lepkowski,

we were finally able to reach Matthew Frosch and his electronic form is now completed. Very sorry for the delay! The files are all uploaded but I can still not proceed with the submission since Michal Arbels electronic forms are not provided yet. Can you help?

Thanks, Frieder

Dear Dr. Schlunk,  
Where your questions regarding the deceased author? Here is what I sent on 12/4:

We will allow you to submit the revision, however please be aware that the issue is just being delayed. You will need to provide some proof from a legal representative or next of kin of the deceased author that they approve of the manuscript and will sign the publication forms. You may be able to check with MGH's Human Resources (via your Research Administrator) as they would likely have a point of contact. You might ask HR to send a letter to the family on your behalf.

As a last resort, perhaps there is something in writing from the institution that may be able to be used in place of a legal representative? The Scientific Publication Committee would need to approve this document. Do you have copies of emails sent or some other document attesting to the steps taken that include Dr. Arbel? AHA might want proof of a good faith effort to contact Dr. Arbel's family. Don't send anything yet; you should discuss the matter with your research administrator first to see if he or she could provide some documentation.

Please note, Dr. Frosch has not completed the copyright form. Once he completes it, please inform us and we can override the 2 forms for Michal Arbel to allow you to submit the revision.

Thank you,  
Pamela Lepkowski

Dear Pamela Lepkowski,

please see my questions below in your email

Dear Dr. Schlunk,

Thank you for letting us know. I have marked the forms complete for Dr. Dr. Arbel (for now).

*Thank you very much! That is a great help!*

Please double check the files. The manuscript file that is converted to PDF seems to be from 07/23/2018 (first version) and I don't see a visual abstract uploaded. Those 2 items I could quickly identify. I did not go thru your whole submission.

*I uploaded the manuscript with our modifications highlighted. For some reason the old version of the manuscript was uploaded too. I am not sure why and will try to remove it.*

*Is it necessary to upload the visual abstract already now? I understood that it can be uploaded at a later time point. Would that be possible?*

You may make the tracked changes version the Manuscript File (so that it will convert to PDF) if that is easier, but we don't want the original ms shown in the r1 version.

*See further above. Thanks again!!*

Please let me know if you have any further questions.

Thank you,

Pamela Lepkowski

Hi Pamela,

Please ask the corresponding author to provide the name and email address for the the deceased author's designee. You can then update the author's email address to be that of the designee (and add a sticky note that you did this). You can then send the email requests for the electronic forms to the designee through the system.

Thank you,

Erinn

Hello Rebecca and Erinn,

I just checked and the forms are completed (with today's date). HOWEVER, I must have done something wrong as they are both signed by Dr Arbel and not the husband Roy Ornath. Can we go forward with the submission? UGH. pamela

Dear Pamela,

Roy Ornath just emailed me that he has completed the forms. Can you confirm that you received it?

Thanks so much!

Frieder

Dear Dr. Schlunk,

Unfortunately not. I sent the forms on 1/22 and just resent both forms today. They were sent to [roy\\_ornath@yahoo.com](mailto:roy_ornath@yahoo.com)

Thank you,  
Pamela

Thu, Feb 7, 2019 at 10:30 AM

Hi,

It looks fine. You added the husband's email as a secondary email so it looks as if Arbel signed. Our system uses email to allow access, so Roy could have used his yahoo email or Arbel's email to complete the forms.

Also, since Arbel is the author technically, his name appears on the form.

Thanks,

Rebecca

Dear Dr. Schlunk,

Thank you for sending the email address. Could you please confirm the complete name and that he will be the designee.

Best,  
Pamela

Dear Dr. Schlunk,

Please provide the name and email address for the the deceased author's designee. Once we have that information, we can update our files and send the email requests for the electronic forms to the designee through the system. We only can accept forms completed online.

Thank you,  
Pamela

Dear Pamela Lepkowski,

we recieved the decision letter from STROKE and will provide you with the necessary forms as soon as possible. Do you have a link or a pdf file for the forms (Authorship Responsibility and Copyright Transfer Agreement) in order to send it to the husband of our co-author?

Thanks again for your help!

Dear Dr. Schlunk,  
 Great news! The forms were submitted today! If everything else is complete, go ahead and submit your latest revisions.

Thanks for your work and patience during this unusual process.

Best,  
 Pamela

Dear Dr. Schlunk,

Unfortunately not. I sent the forms on 1/22 and just resent both forms today. They were sent to [roy\\_ornath@yahoo.com](mailto:roy_ornath@yahoo.com)

Thank you,  
Pamela
