Supplementary Figure S1. Sequence Length distribution. Fig S1A. Sequence length distribution of prenatal stage (LDE). Fig S1B. Sequence length distribution of postnatal stage (LDA). The X-axis is the length of reads, and the Y-axis is the proportion of the reads at that length.

432

433

434 **Supplementary Figure S2.** Annotation of unique reads in LDE and LDA. The number in brackets is the total

435 number of sRNAs aligned with the reference sequence and the percentage is the proportion of each sRNA.
