

APPENDICES

Appendix 1: Definition of processes of care

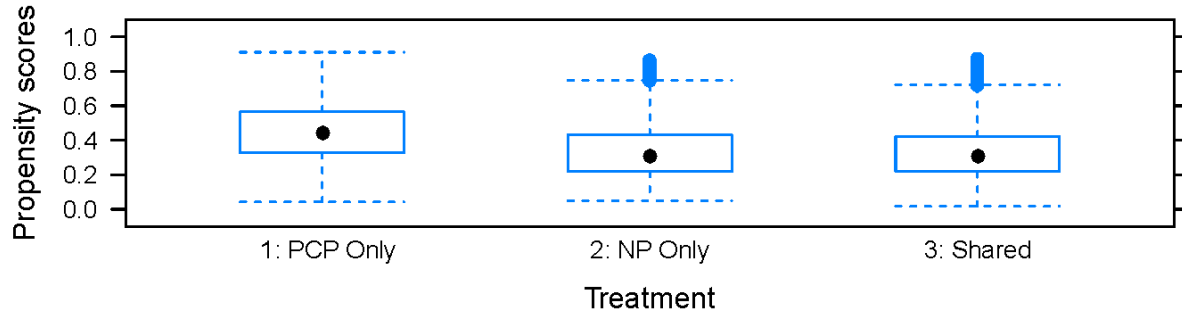

Process of care	CPT4 code	HCPCS codes
Chronic Disease Management	99053-99070, 99091	G0181, G0182
Cardiac Rehabilitation	93797, 93798	G0422, G0423
Transthoracic or Trans-esophageal Echocardiogram	93306-93308, 93312-93314, 93318	C8923-C8925, C8927-C8930

Appendix 2: Absolute standard difference of patient characteristics from pairwise comparison among primary care physicians (PCPs), nurse practitioners (NPs), and share care before and after propensity weight.

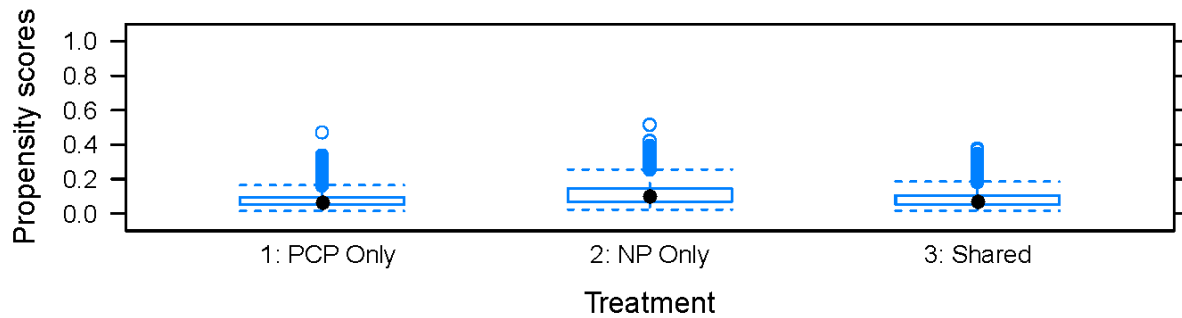

Appendix 3: Distribution of propensity scores among primary care physicians (PCPs), nurse practitioners (NPs), and share care providers.

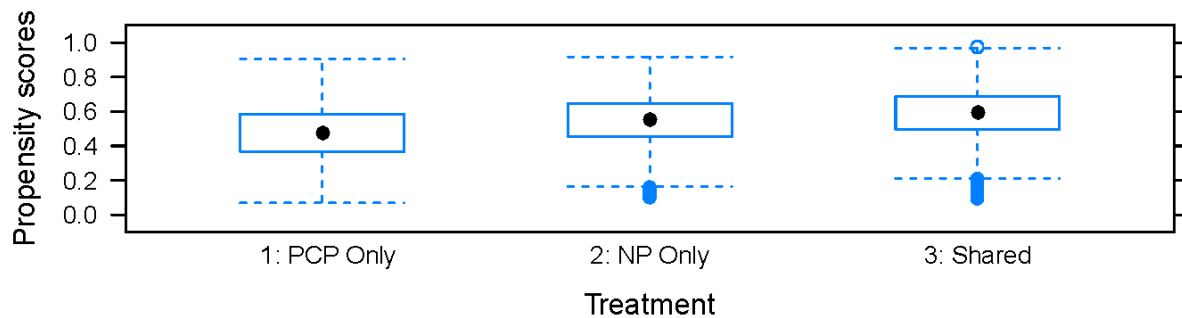

1: PCP Only propensity scores by Tx group

2: NP Only propensity scores by Tx group

3: Shared propensity scores by Tx group

*Tx group represents the primary care models.
