# **BANFF PATELLOFEMORAL INSTABILITY INSTRUMENT 2.0**

A QUALITY OF LIFE SCORE FOR PATIENTS WITH PATELLOFEMORAL INSTABILITY

Patient Name (first / last):

Date of Visit (day / month / year): \_\_\_\_\_

Your Surgeon's Name:	Which knee are you being seen for today?	This visit is your:
•	❑ Left Knee ❑ Right Knee ❑ Both Knees	<ul> <li>First Consult / Exam</li> <li>Day of Surgery</li> <li>3 Months postop</li> <li>6 Months postop</li> <li>12 Months postop</li> <li>24 Months postop</li> </ul>

## DIRECTIONS

Please answer each question with respect to the current status, function, circumstances and beliefs surrounding your knee that has an unstable kneecap. Consider the last three months.

Indicate with a slash ( / ) on the line, the point ranging from 0 to 100 which most closely represents your situation.

For example, the following question:

Is this a good questionnaire?

0	100
	100
Useless	Fantastic

If the slash is placed in the middle of the line, this indicates that the questionnaire is of average quality, or in other words, between the extremes of 'useless' and 'fantastic'. It is important to put your slash at either end of the line if the extreme descriptions accurately reflect your situation.

#### SECTION A: SYMPTOMS AND PHYSICAL COMPLAINTS

1.	How troubled are you by "popping-out" or instability of your kneecap?		
	0 — Extremely troubled	Not troubled at all	
2.	How much pain or discomfort do you get in your knee with any kind of activity (greater than half an hour)? For example: standing, walking, sp		
	0	No pain at all	
3.	How much pain or discomfort do you get in your knee with prolonged s than half an hour)? For example: movies, driving, etc.	itting (greater	
	0	No pain at all
