

Supplementary Figures

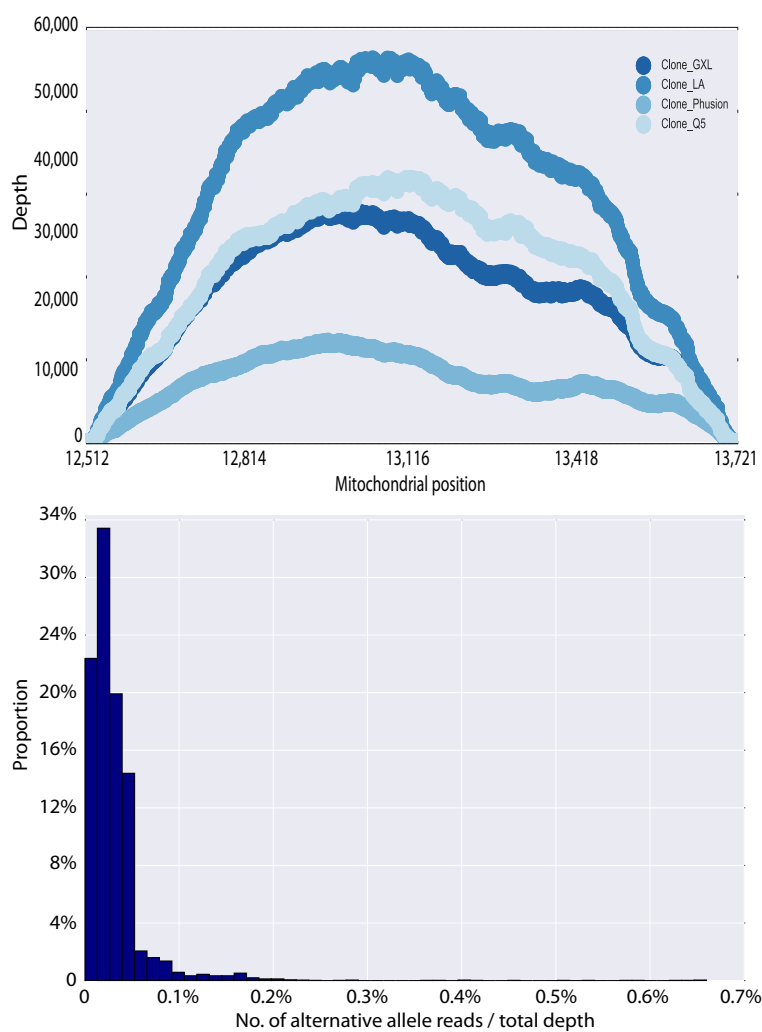

Supplementary Figure 1. Flow cytometry and RT-qPCR analysis of germ cells and somatic cells.

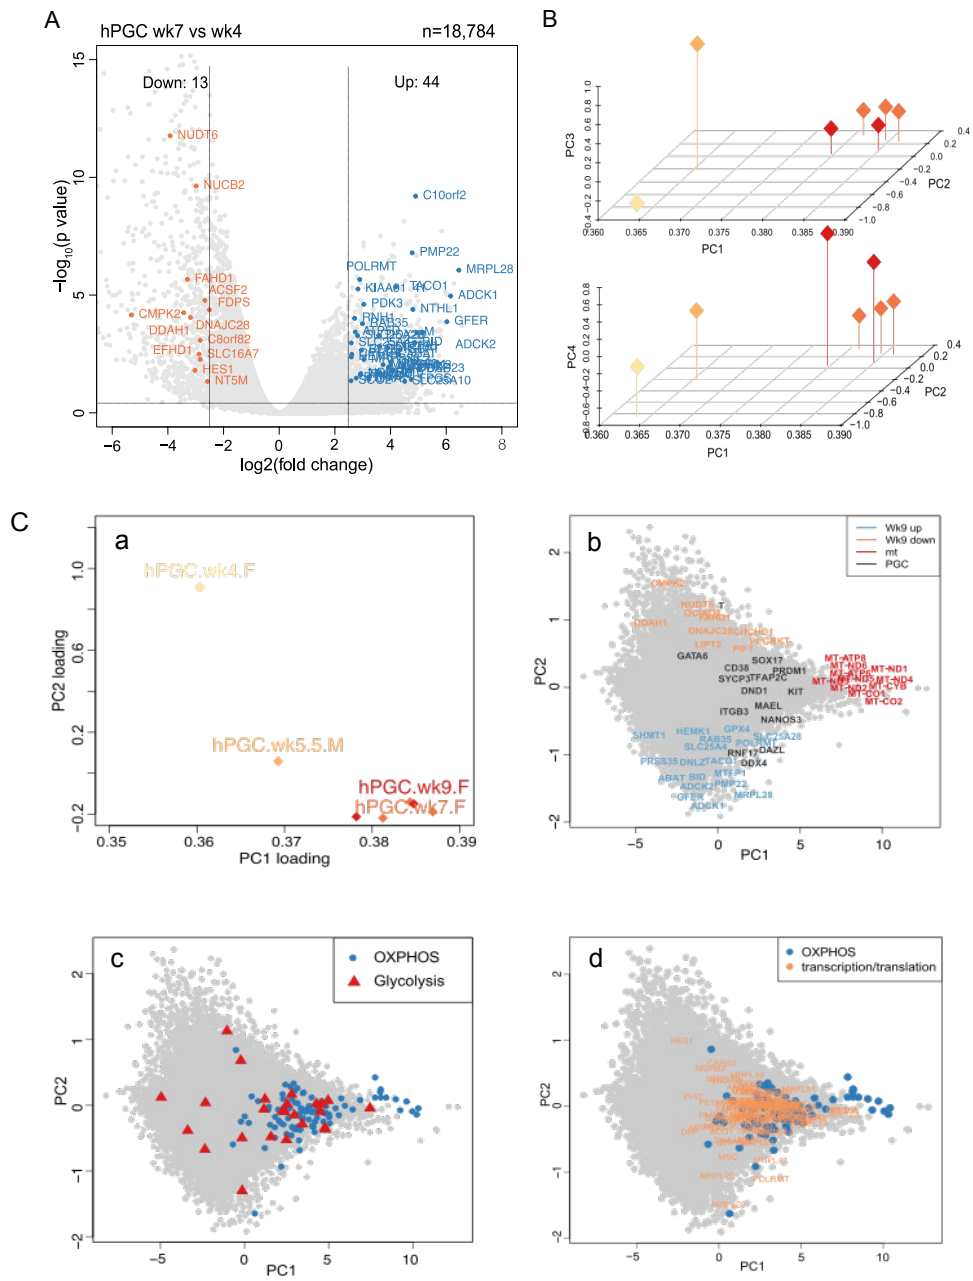

Supplementary Figure 2. RT-qPCR analysis for germ cell specific and soma transcripts.

Supplementary Figure 3. Ultra-deep sequencing quality.

Supplementary Figure 4. RNAseq of human primordial germ cells (PGCs).

Supplementary Figure 5. 2-D PCA of the respiratory electron transport chain complexes & gene expression correlation of hPGCs, soma and hESCs samples.
