**ESM Fig.1**

*Ngn3* mRNA expression in islets was comparable between control *flox* and VE-PDPK1-KO mice. (n=8 mice) Values are the means  $\pm$  SEM. f/f, control *flox* mice; KO, VE-PDPK1-KO mice

**ESM Fig.2**

There was no difference in pancreatic weight between control *flox* and VE-PDPK1-KO mice. (n=8 mice) Values are the means  $\pm$  SEM. f/f, control *flox* mice; KO, VE-PDPK1-KO mice

**ESM Fig.3**

mRNA expression levels of *Hgf* and *Fgf2* in islets were comparable between control *flox* and VE-PDKPK1-KO mice. (n=8 mice) Values are the means  $\pm$  SEM. f/f, control *flox* mice; KO, VE-PDPK1-KO mice
