

## Supplementary Online Content

Caan BJ, Feliciano EMC, Prado CM, et al. Association of muscle and adiposity measured by computed tomography with survival in patients with nonmetastatic breast cancer. *JAMA Oncol.* Published online April 5, 2018. doi:10.1001/jamaoncol.2018.0137

**eTable 1.** Characteristics of the cohort

**eTable 2.** Multivariable models for overall mortality by age, body mass index, cancer stage and estrogen receptor status

**eTable 3.** Distribution of body composition measures

This supplementary material has been provided by the authors to give readers additional information about their work.

**eTable 1: Characteristics of the cohort**

**eTable 2: Multivariable models for overall mortality by age, body mass index, cancer stage and estrogen receptor status**

**eTable 3: Distribution of body composition measures**

**eTable 1. Characteristics of the cohort**
