

Figure S1. M-2 and M-5 AUC

M-2 and M-5 exposure compared between phase A (regorafenib alone) and phase B (regorafenib concomitantly with esomeprazole) (figure 1A, 1C), and between phase A and C (regorafenib with esomeprazole 3 hours prior) (figure 1B, 1D)

Abbreviations: AUC_{0-24} = Area under the curve, timepoint 0h to 24h
