Spontaneous Regional Brain Activity in Healthy Individuals is Nonlinearly Modulated by the Interaction of *ZNF804A* rs1344706 and *COMT* rs4680 Polymorphisms

Lingling Cui, Fei Wang, Miao Chang, Zhiyang Yin, Guoguang Fan, Yanzhuo Song, Yange Wei, Yixiao Xu, Yifan Zhang, Yanqing Tang, Xiaohong Gong, Ke Xu

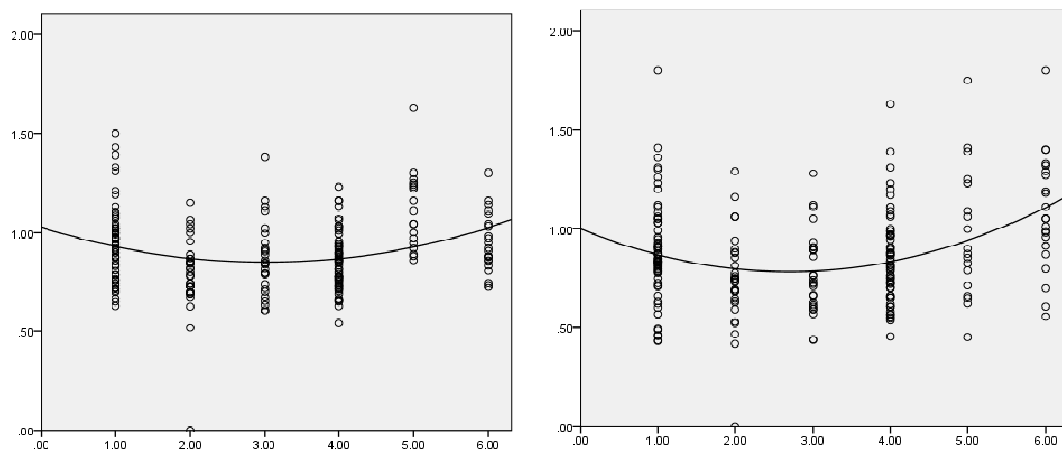

Fig. S1. By sorting according to *COMT*, the quadratic regression was significant (Right: $r^2 = 0.068$, $P = 0.001$; Left: $r^2 = 0.115$, $P < 0.001$)
