

Supplementary Table 2. Publication bias analysis using the “trim-and-fill” methods for identification of successful recanalization and distal emboli in this meta-analysis

Outcomes	Studies trimmed	Point Estimate	Lower limit	Upper limit	Q-value
Successful recanalization					
Observed values		1.632	1.293	2.059	9.967
Adjusted values	2	1.489	1.191	1.860	17.824
Distal emboli					
Observed values		0.404	0.108	1.505	12.716
Adjusted values	2	1.165	0.310	4.382	39.354
