

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description:

1A: List of genes significantly deregulated (FDR < 0.05) after 4 days of DOX treatment relative to untreated cells, in H1299 human cells expressing a DOX-inducible BRCA2 shRNA

1B: List of genes significantly deregulated (FDR < 0.05) after 4 days of DOX treatment relative to untreated cells, in MDA-MB-231 human cells expressing a DOX-inducible BRCA2 shRNA

File Name: Supplementary Data 2

Description:

2A: List of genes significantly deregulated (FDR < 0.05) after 28 days of DOX treatment relative to untreated cells, in H1299 human cells expressing a DOX-inducible BRCA2 shRNA

2B: List of genes significantly deregulated (FDR < 0.05) after 28 days of DOX treatment relative to untreated cells, in MDA-MB-231 human cells expressing a DOX-inducible BRCA2 shRNA
