

pGADT7	pGBKT7	SD/-LWHA			
p53	T-antigen				
GhDSC1	lam				
GhDSC1	GhCAMT3				

Figure S9 | Yeast two-hybrid assay of *GhDSC1* and *GhCAMTA3* proteins.

SD/-LWHA represents the selection medium lacking Leu, Trp, His, and Ade. The interaction of murine p53 (p53) and SV40 large T-antigen (T) was used as a positive control for the system, and human lamin C (lam) was used in the negative interaction control.
