

S1 Table. List of 96 autoimmune diseases

1. Acantholysis	33. Erythematous pemphigus	65. Mucous membrane pemphigoid
2. Acute disseminated encephalomyelitis	34. Experimental autoimmune disease	66. Myasthenia gravis
3. Addison Disease	35. Felty syndrome	67. Nervous system autoimmune disease, experimental
4. Adult onset Still disease	36. Giant cell arteritis	68. Nonarticular rheumatism
5. Allergic glomerulonephritis	37. Glomerulonephritis, IgA	69. Ophthalmia, sympathetic
6. ANCA associated vasculitis	38. Glomerulonephritis, membranous	70. Opsoclonus myoclonus syndrome
7. Anemia, hemolytic, autoimmune	39. Goodpasture syndrome	71. Paraneoplastic pemphigus
8. Ankylosing spondylitis	40. Granulomatosis with polyangiitis	72. Pemphigoid
9. Anti-glomerular basement membrane disease	41. Graves disease	73. Pemphigoid gestationis
10. Anti-N-methyl-D-aspartate receptor encephalitis	42. Graves ophthalmopathy	74. Pemphigus
11. Antiphospholipid syndrome	43. Guillain Barre syndrome	75. Pemphigus foliaceus
12. Antisynthetase syndrome	44. Hailey Hailey disease	76. Pemphigus vulgaris
13. Autoimmune diseases of the nervous system	45. Hashimoto disease	77. Pernicious anemia
14. Autoimmune gastritis	46. Heparin induced thrombocytopenia	78. Polyendocrinopathies, autoimmune
15. Autoimmune hypophysitis	47. Hepatitis, autoimmune	79. Polyradiculoneuropathy
16. Autoimmune liver disease	48. Idiopathic hypoparathyroidism	80. Postpartum thyroiditis
17. Autoimmune lung disease	49. Idiopathic thrombocytopenic purpura	81. Primary biliary cirrhosis
18. Autoimmune lymphoproliferative syndrome	50. IgA pemphigus	82. Rheumatic disease
19. Autoimmune pancreatitis	51. Immune complex nephritis	83. Rheumatic heart disease
20. Autoimmune polyendocrinopathy candidiasis ectodermal dystrophy	52. Immunoglobulin A nephropathy	84. Rheumatic polymyalgia
21. Autoimmune skin disease	53. Juvenile rheumatoid arthritis	85. Rheumatoid arthritis
22. Autoimmune thyroiditis	54. Lambert-Eaton myasthenic syndrome	86. Rheumatoid nodule
23. Autoimmune uveitis	55. Latent autoimmune diabetes in adults	87. Rheumatoid vasculitis
24. Behçet disease	56. Leukocytoclastic vasculitis	88. Scleroderma
	57. Limited scleroderma	89. Sjogren syndrome

25. Bullous pemphigoid	58. Linear IgA bullous dermatosis	90. Stiff-Person syndrome
26. Celiac disease	59. Linear scleroderma	91. Syndrome CREST
27. Churg Strauss syndrome	60. Localized scleroderma	92. Systemic juvenile idiopathic arthritis
28. Demyelinating autoimmune diseases, central nervous system	61. Lupus nephritis	93. Systemic lupus erythematosus
29. Dermatitis herpetiformis	62. Lupus vasculitis, central nervous system	94. Systemic sclerosis
30. Diabetes mellitus, type 1	63. Microscopic polyangiitis	95. Uveomeningoencephalitic syndrome
31. Diffuse scleroderma	64. Morphea	96. Vasculitis, central nervous system
32. Endocrine ophthalmopathy
