

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Clinico-pathological and sequencing information for 67 mucosal melanoma patients who underwent whole genome sequencing

File Name: Supplementary Data 2

Description: Clinico-pathological and sequencing information for 45 mucosal melanoma patients who underwent whole exome sequencing from FFPE

File Name: Supplementary Data 3

Description: SNV/indel coding mutations

File Name: Supplementary Data 4

Description: Significantly mutated genes

File Name: Supplementary Data 5

Description: Predicted in frame gene fusions

File Name: Supplementary Data 6

Description: Clinically actionable mutations
