

## Reviewer Report

**Title: To assemble or not to resemble – A validated Comparative Metatranscriptomics Workflow (CoMW)**

**Version: Revision 1**      **Date: 6/10/2019**

**Reviewer name: Patrick May**

### Reviewer Comments to Author:

The authors have replied sufficiently to all my comments and did change the structure and title of the manuscript as suggested by the reviewers. Also they made the data and code available via public repositories. The new conda installation works properly and I was now able to install the workflow and to run an example.

No further comments.
