

Multimedia Appendix 2: Grid documenting the Characteristics of the Intervention Plan

Problems identified during functional assessment in occupational therapy before the use of mobile videoconferencing	Recommendations before the use of mobile videoconferencing Date:	Applicability: Is the initial recommendation applicable to the use of mobile videoconferencing?	Recommendations after the use of mobile videoconferencing Date:	Explain the change, if it's the case and why.
<i>Example: 1. Difficulty in transfers to the toilet</i>	<i>4 " toilet seat + safety support frame</i>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<i>High chair 19" on wheels placed above the toilet</i>	<i>The space between the toilet and the bath is too small and the safety support frame would block access to the bathing board during the transfer. The toilet commode on wheels will be more easily moved by the spouse to facilitate access to the bath.</i>
		<input type="checkbox"/> Yes <input type="checkbox"/> No		
		<input type="checkbox"/> Yes <input type="checkbox"/> No
