

Supplementary Table S1. Risk of MetS features based on associated factors from multivariable logistic regression (categorical variables).

Categorical Variables (reference)	N	MetS
		OR(95%CI)
Age		1.01 (0.80,1.29)
Gender (Boy)	1011	1.48 (0.69,3.19)
Country (China)	1150	14.52 (5.53,38.13)
Breastfeeding duration (≤ 6 month)	732	0.50 (0.20,0.89)
Birth weight (normal weight)	1720	
High birth weight	193	1.24 (0.46,3.36)
Low birth weight	89	NA
