

Description of Additional Supplementary Files

File Name: Supplementary Data 1
Description: Clinical and pathology.

File Name: Supplementary Data 2
Description: Targeted exome sequencing and copy number variation.

File Name: Supplementary Data 3
Description: Proteomics.

File Name: Supplementary Data 4
Description: RNAseq, ESTIMATE, and CIBERSORT.

File Name: Supplementary Data 5
Description: Association tests and tables.

File Name: Supplementary Data 6
Description: Correlation results.

File Name: Supplementary Data 7
Description: Proteomics differential expression.

File Name: Supplementary Data 8
Description: Enrichr GO pathway enrichment.

File Name: Supplementary Data 9
Description: MSigDB pathway enrichment.

File Name: Supplementary Data 10
Description: Project DRIVE results.
