

Supplementary Material

Norm data for the SLS-Berlin

Percentile ranks indicating the percentage of persons from the comparison group with the same or a lower SLS-Berlin score for the whole norm sample, the two subsamples of younger and older adults and for age decades within the subsample of older adults

SLS-Berlin Score	Age range	All	Subgroups		Age Decades within the Subgroup of Older Adults		
		(N=2148)	Younger Adults (N=655)	Older Adults (N=1493)	60er (N=663)	70er (N=832)	80er (N=25)
		16-88	16-59	60-88	60-69	70-79	80-88
