**1. GETTING STARTED**

**1.1. Introduction**

Use iThermometer to get the best performance.

**1.2. Features**

1.2.1. Use the iThermometer to get the best performance.

**1.3. Accessories**

1.3.1. Use the iThermometer to get the best performance.

**2. WARNINGS**

2.1. Do not use the iThermometer to measure the temperature of the body.

**3. OPERATION INSTRUCTIONS**

3.1. Turn on the iThermometer.

3.2. Measure the temperature.

**4. TECHNICAL SPECIFICATIONS**

Parameter	Value
Measurement range	35.0°C to 42.0°C
Resolution	0.1°C
Accuracy	±0.1°C

**5. IMPORTANT PRECAUTIONS**

5.1. Do not use the iThermometer to measure the temperature of the body.

**6. TROUBLESHOOTING**

Problem	Cause	Solution
The iThermometer does not power on.	1. The battery is not inserted correctly.	1. Check the battery.
The iThermometer does not measure the temperature.	2. The iThermometer is not in contact with the body.	2. Check the contact.

**7. MAINTENANCE**

7.1. Clean the iThermometer with a soft cloth.

**8. CLEANING & DISINFECTION**

8.1. Clean the iThermometer with a soft cloth.

**9. TECHNICAL SPECIFICATIONS**

9.1. Measurement range: 35.0°C to 42.0°C

9.2. Resolution: 0.1°C

9.3. Accuracy: ±0.1°C

**10. FUNCTIONAL DESCRIPTION**

10.1. The iThermometer is a non-invasive thermometer.

**11. DISPOSITION OF SYMBOLS**

11.1. The iThermometer is a non-invasive thermometer.

**12. INDEX**

12.1. The iThermometer is a non-invasive thermometer.

**13. WARRANTY**

13.1. The iThermometer is a non-invasive thermometer.

**14. SUBSTITUTION OF ACCESSORIES**

14.1. The iThermometer is a non-invasive thermometer.

**15. INDEX**

15.1. The iThermometer is a non-invasive thermometer.

**16. APPENDIX**

16.1. The iThermometer is a non-invasive thermometer.

**17. WARRANTY CARD**

17.1. The iThermometer is a non-invasive thermometer.
