

Supplemental Table 1. Nair et al. scoring system

0	No adhesions
1	Between viscera or between visceral viscus and abdominal wall (one band)
2	Between viscera or between visceral viscus and abdominal wall (two bands)
3	Between viscera, between visceral viscus and abdominal wall (more than two bands) or multiple intestinal adhesions without adhesion to the abdominal wall
4	Direct adhesion of the viscera to the abdominal wall (number and size of bands not important)

Supplemental Table 2. Histopathological criteria for inflammatory score

Score	Degree of inflammation
0	No inflammation
1	Giant cells, lymphocytes, and plasma cells
2	Giant cells, plasma cells, eosinophils, and neutrophils
3	Inflammatory cell infiltration and microabscess formation
