

Table S13. List of concomitant drugs in both study cohorts

Ciprofloxacin cohort	Cotrimoxazole cohort
<i>Virostatic agents</i>	
<ul style="list-style-type: none"> • acyclovir • ribavirin 	<ul style="list-style-type: none"> • valaciclovir
<i>Antifungals</i>	
<ul style="list-style-type: none"> • posaconazole • amphotericin B • pentamidine • fluconazole 	<ul style="list-style-type: none"> • posaconazole • amphotericin B
<i>Proton pump inhibitors</i>	
<ul style="list-style-type: none"> • pantoprazole 	<ul style="list-style-type: none"> • pantoprazole
<i>Anti-cancer substances</i>	
<ul style="list-style-type: none"> • cytarabine • rituximab • cyclophosphamide • etoposide • vincristine • doxorubicin • bortezomib • cisplatin • imatinib • hydroxyurea • idarubicin • lenalidomide • daunorubicin • decitabine • arsenic trioxide 	<ul style="list-style-type: none"> • cytarabine • rituximab • cyclophosphamide • etoposide • vincristine • doxorubicin • bortezomib • procarbazine • mitoxantrone • bleomycin • ifosfamide • elotuzumab • methotrexate
<i>Laxatives</i>	
<ul style="list-style-type: none"> • lactulose • polyethylene glycol (macrogol) • sodium picosulfate 	<ul style="list-style-type: none"> • lactulose • polyethylene glycol (macrogol) • sodium picosulfate
<i>Cholesterol-lowering substances</i>	
<ul style="list-style-type: none"> • simvastatin 	
<i>Immunosuppressives</i>	
<ul style="list-style-type: none"> • dexamethasone • prednisolone 	<ul style="list-style-type: none"> • dexamethasone • prednisone
<i>Others</i>	
<ul style="list-style-type: none"> • ranitidine • retinoic acid 	<ul style="list-style-type: none"> • ranitidine
