

## Supplementary material

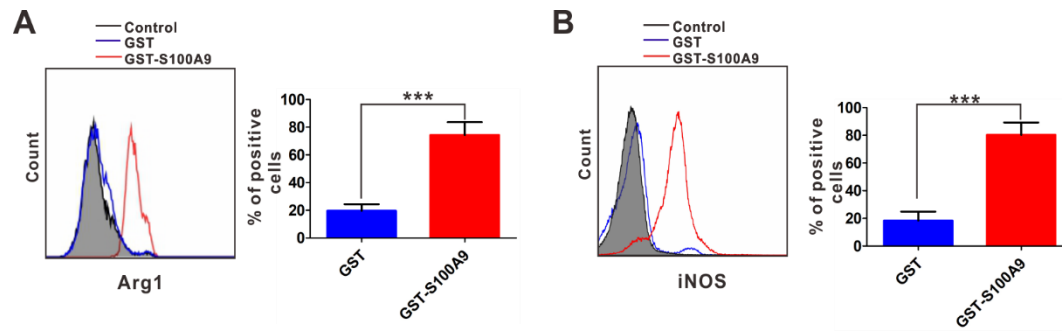

FIGURE S1 | Representative histograms for intracellular immunosuppressive molecules Arg1(A) and iNOS (B) expression in MDSCs by FCM analysis. The gray-filled histograms represent controls, and the different colored dotted lines represent MDSCs treated with GST-S100A9 (20 $\mu$ g/ml) and GST (20 $\mu$ g/ml) proteins. Statistical analysis of the mean percentages of Arg-1 (A) and iNOS (B) in positive cells in MDSC population. Data represents the mean $\pm$ SD. \*\*\*p<0.001.
