

SUPPLEMENTARY TABLE S2. CHANGE IN NEEDS FROM BASELINE TO FOLLOW-UP AMONG INTERVENTION PARTICIPANTS

		<i>Follow-up food insecurity</i>	
		<i>Absent</i>	<i>Present</i>
<i>Food insecurity</i>			
	Baseline food insecurity	N (Row %)	N (Row %)
	Absent	70 (86.4)	11 (13.6)
	Present	14 (25.5)	41 (74.6)
<i>Cost-related medication underuse</i>		<i>Follow-up cost-related medication underuse</i>	
		<i>Absent</i>	<i>Present</i>
	Baseline cost-related medication underuse	N (Row %)	N (Row %)
	Absent	60 (77.9)	17 (22.1)
	Present	24 (39.3)	37 (60.7)
<i>Transportation barrier</i>		<i>Follow-up transportation barrier</i>	
		<i>Absent</i>	<i>Present</i>
	Baseline transportation barrier	N (Row %)	N (Row %)
	Absent	64 (87.7)	9 (12.3)
	Present	31 (49.2)	32 (50.8)

Row % indicates the percent of those with a given baseline value who had the response indicated in the column heading at follow-up. For example, of those without food insecurity at baseline, 13.6% reported food insecurity at follow-up.
