1. SEM characterization of UCNPs@COFs

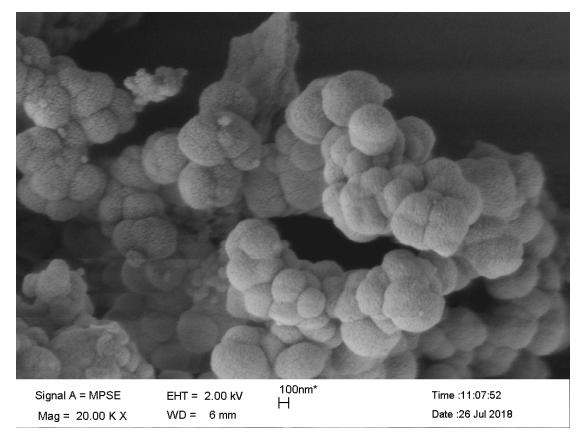

Figure S1. SEM images of UCNPs@COFs.

2. FT-IR characterization of TFB, PDA and UCNPs@COFs

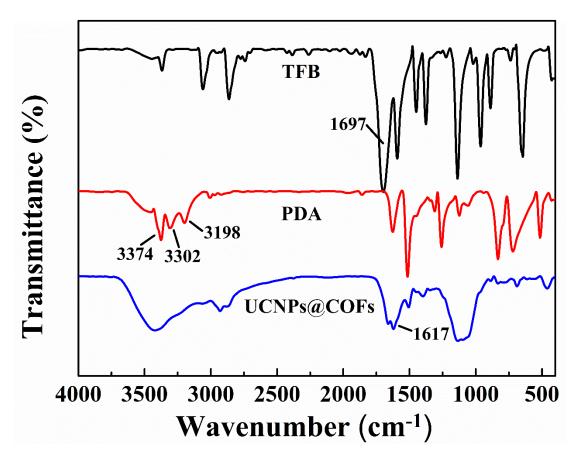

Figure S2. FT-IR spectra of TFB (black), PDA (red) and UCNPs@COFs (blue).

3. Solvent selection of the detection system

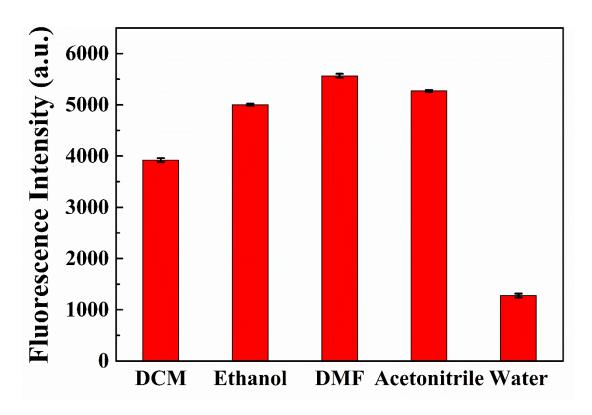

Figure S3. Fluorescence intensities of UCNPs@COFs dispersed in four organic solvents and water.

4. Stability of UCNPs@COFs

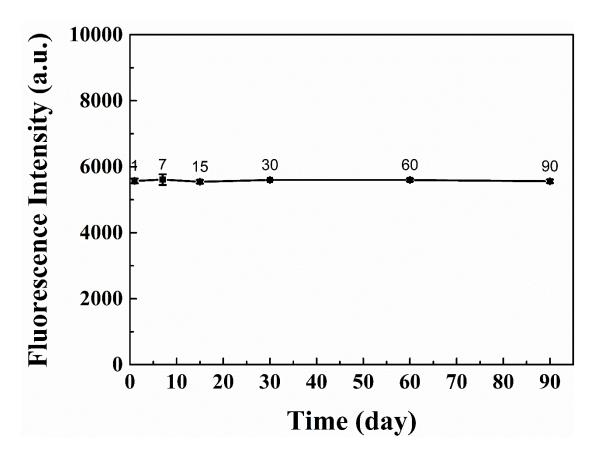

Figure S4. Fluorescence intensities of UCNPs@COFs (dispersed in DMF) during storing.

5. Effect of different surfactants on UCNPs@COFs

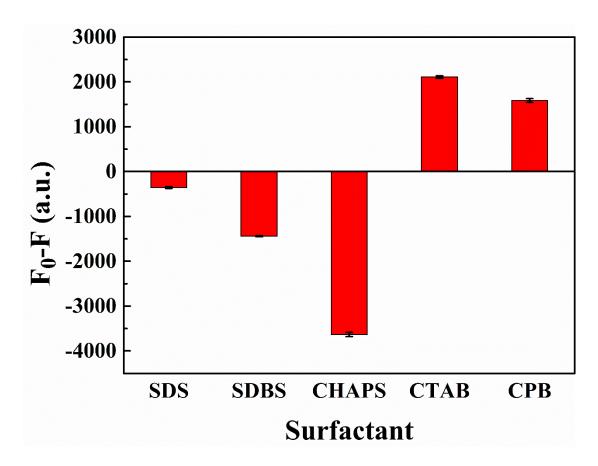

Figure S5. The effect of different surfactants on UCNPs@COFs. (F₀ and F are the fluorescence intensities of UCNPs@COFs at 550 nm in the absence and presence of surfactant, respectively)

6. Contact angles testing

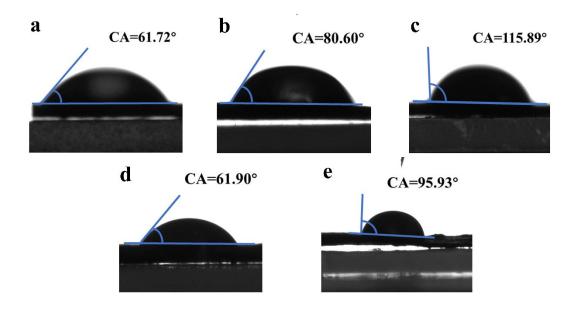

Figure S6. Contact angles of UCNPs@NH₂ (a), UCNPs@COFs (b), UCNPs@COFs & SDBS (c), UCNPs@COFs & CHAPS (d), UCNPs@COFs & CPB (e).

7. Stern-Volmer plots of F_0/F vs lg[PFOS]

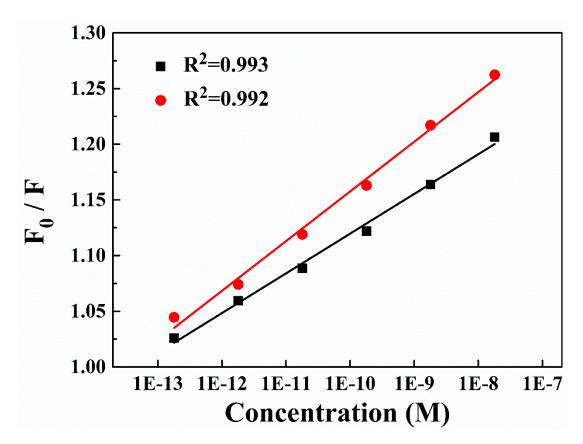

Figure S7. Stern-Volmer plots of F_0/F vs lg[PFOS]. (The fluorescence quenching of UCNPs@COFs to different amounts of PFOS were determined at room temperature (black line) and at 50 °C (red line), respectively.)

8. Method validation results

Table S1. Recoveries of PFOS spiked tap water samples and food packing samples using LC-MS/MS.

| Sample | PFOS added (M) | PFOS found (M) | Recovery (%) |
|--------------|------------------------|------------------------|--------------|
| Tap water | 1.80×10 ⁻¹⁰ | 2.10×10 ⁻¹⁰ | 116 |
| Water bottle | 1.80×10 ⁻¹⁰ | 2.40×10 ⁻¹⁰ | 133 |

9. Structures of six structural analogues of PFOS

Table S2. The structures of six structural analogues of PFOS.

| Compound | Stucture Stucture | MW |
|----------|---|---------|
| | Stucture | (g/mol) |
| PFOS | $F \longrightarrow F \longrightarrow F \longrightarrow F \longrightarrow F \longrightarrow G$ | 538.15 |
| PFDA | $F \longrightarrow F \longrightarrow$ | 514.09 |
| PFNA | $F \longrightarrow F \longrightarrow$ | 464.08 |
| PFOA | $F \longrightarrow F \longrightarrow$ | 414.20 |
| PFHpA | $F \longrightarrow F \longrightarrow F \longrightarrow F \longrightarrow OH$ | 364.06 |
| PFHxA | $F \longrightarrow F \longrightarrow F \longrightarrow F \longrightarrow OH$ | 314.05 |
| PFHxS | $F \longrightarrow F \longrightarrow F \longrightarrow F \longrightarrow O$ | 438.00 |
