

OPEN PEER REVIEW REPORT 1

Name of journal: Neural Regeneration Research

Manuscript NO: NRR-D-19-00197

Title: The neuro-glial coagulonome: the thrombin receptor and coagulation pathways as major players in neurological diseases

Reviewer's Name: Peng Luo

Reviewer's country: China

Date sent for review: 2019-04-12

Date reviewed: 2019-05-02

Review time: 20 days

COMMENTS TO AUTHORS

This review focused on the NG-coagulonome involvement in the pathophysiology of a number of neural diseases in PNS and CNS, modulation of this pathway as a therapeutic target, and potential future research directions. Generally, this manuscript was well written. There were some suggestions for minor revision.

1. The content of abstract should be simplified, and the number of keywords should be reduced.
2. The role of NG-cogulonome in PNS and CNS under physiological condition should be reviewed in an individual section.
