| practices: publicly available data, material, or | er January 1, 2014, are eligible to earn badges that recognize open scientific preregistered research plans. Please read more about the badges on our Open formation in the Open Science Framework wiki and FAQ. |
| Please check this box if you are | e not interested in participating. |
| If you choose to participate, this form will | be posted with your article as supplemental online material. |
| information requested in the relevant section doi, or other permanent path for accessing t public, open-access repositories are comm keeping them publicly accessible via the w be able to be changed at a later time. Exam the various Dataverse networks. Hundreds of and http://databib.org/ . Preregistration of an | ing open practices, please check the appropriate box(es) below and provide the is. You will not qualify for a badge for a given item unless you can provide a URL, the specified information in a public, open-access repository. Qualifying mitted to preserving data, materials, and/or registered analysis plans and web into perpetuity. Files must be registered with a time stamp and must not uples of qualifying repositories include the Open Science Framework (OSF) and fother qualifying data/materials repositories are listed at http://re3data.org/ in analysis plan must take place via a publicly accessible registry system (e.g., OSF, me WHO Registry Network, institutional registration systems). Personal websites ualify as repositories. |
| Authors who wish to publicly post third-party authority or permission agreement in order t | y material in their data, materials, or preregistration plan must have the proper to do so. |
| For example, there are cases in which sharing include an explanation of such circumstances not under conditions eligible to earn a badge- | ssible or advisable to share any or all data, materials, or a research plan publicly. It you would like your article to and/or provide links to any data or materials you have made available—even if —you may write an alternative note that will be published in the Open Practices a would like your article to include an alternative note and provide the text of the |
| Alternative Note: | |
| Application for Open Data Badge 1. Provide the URL, doi, or other perman | nent path for accessing the data in a public, open-access repository: |
| Confirm that there is sufficient in | nformation for an independent researcher to reproduce all of the reported |

Confirm that you have registered the uploaded files so that they are **time stamped** and cannot be changed.

Application for Open Materials Badge

| 1. | Provide the URL, | doi, | or other | permanent | path for | accessing | the mate | erials in a | public, | open | -access re | positor | V. |
|----|------------------|------|----------|-----------|----------|-----------|----------|-------------|---------|------|------------|---------|----|
| | | | | | | | | | | | | | |

Confirm that there is sufficient information for an independent researcher to reproduce **all of the reported methodology**.

Confirm that you have registered the uploaded files so that they are **time stamped** and cannot be changed.

Application for Preregistered Badge

- 1. Provide the URL, doi, or other **permanent path** to the **public** registration in a **public, open-access repository**.*
- 2. Was the analysis plan registered prior to examination of the data or observing the outcomes? If no, explain.**
- 3. Were there additional registrations for the study other than the one reported? If yes, provide links and explain.*
- 4. Were there any changes to the preregistered analysis plan for the primary confirmatory analysis? If yes, explain.**
- 5. Are all of the analyses described in the registered plan reported in the article? If no, explain.*

By signing below, authors affirm that the above information is accurate and complete, that any third-party material has been reproduced or otherwise made available only with the permission of the original author or copyright holder, and that publicly posted data do not contain information that would allow individuals to be identified without consent.

^{*}No badge will be awarded if (1) is not provided, **or** if (3) is answered "yes" without strong justification, **or** if (5) is answered "no" without strong justification.

^{**}If the answer to (2) is "no," the notation DE (Data Exist) will be added to the badge, indicating that registration postdates realization of the outcomes but predates analysis. If the answer to (4) is "yes" with strong justification for changes, the notation TC (Transparent Changes) will be added to the badge, indicating that the analysis plan was altered but the preregistered analyses and rationale for the change are provided.
