Latina	44	2	1	41	6.83	2.30
Multiracial, Asian, AI/AN, NHPI, Other	56	2	3	51	8.87	2.04

^aTotal *N* reflects imputed data and is 1/20th of a subject rounded to the nearest integer.

^bResponse rate = $((N \text{ Abstinent} + N \text{ Not Abstinent}) / \text{Total } N) \times 100$

^cPoint prevalence = $(\text{Abstinent} / N \text{ for point prevalence}) \times 100$. *N* for point prevalence calculations from quit day to day 42 are: 1,082 (overall), 709 (White), 181 (Black), 91 (Latina), 100 (Multiracial, Asian, AI/AN, NHPI, Other); *N* for point prevalence calculations at day 72 are: 1,053 (overall), 694 (White), 173 (Black), 87 (Latina), 98 (Multiracial, Asian, AI/AN, NHPI, Other)
