

Table S2. Identification of inter-morph DEGs at each developmental stage of styles.

Intra-morph comparison	Pairwise comparison		
	Small floral bud	Big floral bud	Early flowering stage
S-morph vs L-morph	S <sub>S</sub> vs L <sub>S</sub>	S <sub>B</sub> vs L <sub>B</sub>	S <sub>E</sub> vs L <sub>E</sub>
S-morph vs H-morph	S <sub>S</sub> vs H <sub>S</sub>	S <sub>B</sub> vs H <sub>B</sub>	S <sub>E</sub> vs H <sub>E</sub>
L-morph vs H-morph	L <sub>S</sub> vs H <sub>S</sub>	L <sub>B</sub> vs H <sub>B</sub>	L <sub>E</sub> vs H <sub>E</sub>

S<sub>S</sub>, S<sub>B</sub>, and S<sub>E</sub> refer to gene expression at each developmental stage in S-morphs, L<sub>S</sub>, L<sub>B</sub>, and L<sub>E</sub> refer to gene expression at each developmental stage in L-morphs, and H<sub>S</sub>, H<sub>B</sub>, and H<sub>E</sub> refer to gene expression at each developmental stage in H-morphs.
