

Appendix S2. Species names, subgeneric or clade designations, vouchers, GenBank accessions, biogeographical area scoring (see Appendix S4 for area names), biome scoring (see Appendix S5 for biome names), and pollinator scoring. The “*Salvia aegyptiaca* clade” is informally listed here with subg. *Zhumeria*. Species in the informal “*Heterosphace*” are listed here under two subgroups, New World “*Salviastrum*” or Old World “*Verticillata*.”
