

Table S4. List of type species of the current genera of the family *Enterobacteriaceae* with validly published names. GenBank accession numbers for the genome sequences and the 16S rRNA gene sequences (if available) of the type strains of the type species are shown.

Type species	Type strain genome sequence accession number	Type strain 16S rRNA gene sequence accession number
<i>Biostraticola tofi</i>	SMCR00000000	AM774412
<i>Buttiauxella agrestis</i>	JMPI00000000	JMPI00000000
<i>Cedecea davisae</i>	ATDT00000000	ATDT00000000
<i>Citrobacter freundii</i>	BBMV00000000	BBMV00000000
<i>Cronobacter sakazakii</i>	CP011047	CP011047
<i>Enterobacillus tribolii</i>	QRAP00000000	QRAP00000000
<i>Enterobacter cloacae</i>	CP001918	CP001918
<i>Escherichia coli</i>	AGSE00000000	AGSE00000000
<i>Franconibacter helveticus</i>	AWFX00000000	AXDK00000000
<i>Gibbsiella quercinecans</i>	CP014136	CP014136
<i>Izhakiella capsodis</i>	FOVC00000000	KF436763
<i>Klebsiella pneumoniae</i>	JOOW00000000	JOOW00000000
<i>Kluyvera ascorbata</i>	JMPL00000000	JMPL00000000
<i>Kosakonia cowanii</i>	BBEU00000000	BBEU00000000
<i>Leclercia adecarboxylata</i>	JMPM00000000	BCNP00000000
<i>Lelliottia nimipressuralis</i>	SDDX00000000	SDDX00000000
<i>Mangrovibacter plantisponsor</i>	QGTS00000000	QGTS00000000
<i>Metakosakonia massiliensis</i>	CAEO00000000	CAEO00000000
<i>Phytobacter diazotrophicus</i>	SMDE00000000	KY288669
<i>Plesiomonas shigelloides</i>	LT575468	LT575468
<i>Pluralibacter gergoviae</i>	BCZS00000000	UGTG00000000
<i>Pseudoescherichia vulneris</i>	BBMZ00000000	BBMZ00000000
<i>Pseudocitrobacter faecalis</i>	QNRL00000000	QNRL00000000
<i>Raoultella planticola</i>	JMPP00000000	JMPP00000000
<i>Rosenbergiella nectarea</i>	FOGC00000000	FOGC00000000
<i>Saccharobacter fermentatus</i> ^a	---	---
<i>Salmonella enterica</i>	CP019186	CP019186
<i>Shigella dysenteriae</i>	CP026774	CP026774
<i>Shimwellia pseudoproteus</i>	---	FJ267523
<i>Siccibacter turicensis</i>	AWFZ00000000	AVPP00000000
<i>Trabulsiella guamensis</i>	JMTB00000000	JMTB00000000
<i>Yokenella regensburgei</i>	JMPS00000000	JMPS00000000

^a Type strain not available at any recognized culture collection.
