

**Mode of birth and long term sexual health: a follow-up study of mothers in the Danish National Birth Cohort**

Sarah Hjorth, Helene Kirkegaard, Jørn Olsen, Jim G Thornton, Ellen A Nohr

**Supplemental material**

The supplementary material contains:

Supplemental table 1: Sexual health in the past year (2012-2013) in mothers in their mid-forties (N=37 147).

Supplemental table 2: Sexual problems by degree of perineal tear, 3<sup>rd</sup> and 4<sup>th</sup> degree tears analysed separately.

Supplemental table 3: Sexual problems by mode of birth in participants with complete data.

Supplemental table 4: Sexual problems by degree of perineal tear in participants with complete data.

Supplemental table 5: Exposures in participants and non-participants.

Supplemental table 6: Frequent dyspareunia by mode of birth.

Supplemental table 7: Participant characteristics by degree of perineal tear.

Supplemental table 8: Frequent dyspareunia by degree of perineal tear.

Supplemental table 9: Sexual problems by mode of birth in women who had their first birth in the DNBC.

Supplemental table 10: Sexual problems by degree of perineal tear in women who had their first birth in the DNBC.

Supplemental table 11: Sexual problems by mode of birth in participants without vaginismus.

Supplemental figure 1: Directed acyclic graph.

**Supplemental table 1: Sexual health in the past year (2012-2013) in mothers in their mid-forties (N=42 132).**

	<b>Women with a partner, N=37 417</b>		<b>Women without a partner, N=4 715</b>	
<b>Have your sexual needs been met?, n (%)*</b>				
Completely	15 081	(41)	417	(9)
Almost completely	10 208	(29)	537	(12)
Partially	6 666	(18)	1 067	(23)
A little	2 248	(6)	918	(20)
Not at all	1 090	(3)	1 214	(27)
I have not had sexual needs	1 108	(3)	362	(8)
I do not know	290	(1)	52	(1)
<b>How often have you been sexually active with another person?, n (%)*</b>				
Every day	89	(0.2)	6	(0.1)
3–6 times a week	3 432	(9)	185	(4)
1–2 times a week	13 640	(37)	553	(12)
1–3 times a month	12 671	(35)	885	(20)
Less than once a month	4 960	(14)	1 177	(26)
Not at all	1 327	(4)	1 600	(35)
I do not know	348	(1)	122	(3)
<b>Have you experienced lacking or reduced sexual desire?, n (%)*</b>				
Yes, all the time	1 551	(4)	234	(5)
Yes, often	7 551	(21)	505	(11)
Yes, sometimes	13 566	(37)	755	(17)
Yes, but rarely	9 084	(25)	764	(17)
No, never	4 612	(13)	1 681	(37)
I do not know	376	(1)	608	(13)
<b>If yes, was it a problem for you?</b>				
Yes	7 945	(35)	287	(19)
No	12 220	(55)	1 077	(73)
I do not know	2 275	(10)	119	(8)
<b>Was it a problem for your partner?</b>				
Yes	12 752	(61)	-	
No	4 465	(21)	-	
I do not know	3 740	(18)	-	
<b>Have you experienced the following during sexual activity with another person?, n (%)*</b>				

**Supplemental table 1: Sexual health in the past year (2012-2013) in mothers in their mid-forties (N=37 147) (continued).**

	<b>Women with a partner, N=37 417</b>	<b>Women without a partner, N=4 715</b>	
<b>I have not been sufficiently wet in the vagina</b>			
Not at all	18 242 (51)	2 468 (57)	
Rarely	8 272 (23)	572 (13)	
Sometimes	5 938 (16)	337 (8)	
Often	2 024 (6)	126 (3)	
Every time	885 (2)	62 (1)	
I do not know	787 (2)	770 (18)	
<b>I have not, or only with great difficulty, achieved orgasm</b>			
Not at all	13 119 (36)	1 566 (36)	
Rarely	10 580 (29)	854 (20)	
Sometimes	6 853 (19)	632 (15)	
Often	2 943 (8)	324 (8)	
Every time	1 707 (5)	208 (5)	
I do not know	817 (2)	730 (17)	
<b>I have had vaginismus that prevented intercourse</b>			
Not at all	34 601 (95)	3 557 (82)	
Rarely	638 (2)	58 (1)	
Sometimes	269 (1)	17 (0.4)	
Often	87 (0.2)	<5 (<0.1)	
Every time	16 (<0.1)	0 (0)	
I do not know	647 (2)	701 (16)	
<b>I have had pain in my genitals and/or abdomen with intercourse</b>			
Not at all	26 965 (74)	3 019 (70)	
Rarely	5 256 (14)	338 (8)	
Sometimes	2 704 (7)	185 (4)	
Often	584 (2)	48 (1)	
Every time	211 (1)	23 (1)	
I do not know	546 (2)	720 (17)	
<b>If yes, where was the pain located?†</b>			
At the vaginal entrance	1 253 (36)	71 (28)	
Deep in the abdomen	2 277 (65)	197 (77)	
I do not know	228 (7)	14 (5)	

\*Percentage of those who have answered the question. The number of answers available for analysis for each outcome differed, as the response option 'I do not wish to answer this question' was provided for questions on sexual health and varied for all questions between 210 and 1361. In general, women without a partner more often used this answer category. The number of missing values were between 0 and 37 for all questions except 'was it a problem for your partner?' with 1503 missing values. The proportion of missing values did not differ between women with and without a partner.

†More than one answer could be given, wherefore the percentage adds up to more than 100.

**Supplemental table 2: Sexual problems by degree of perineal tear, 3<sup>rd</sup> and 4<sup>th</sup> degree tears analysed separately.**
