Table S1. Primers used in this study.

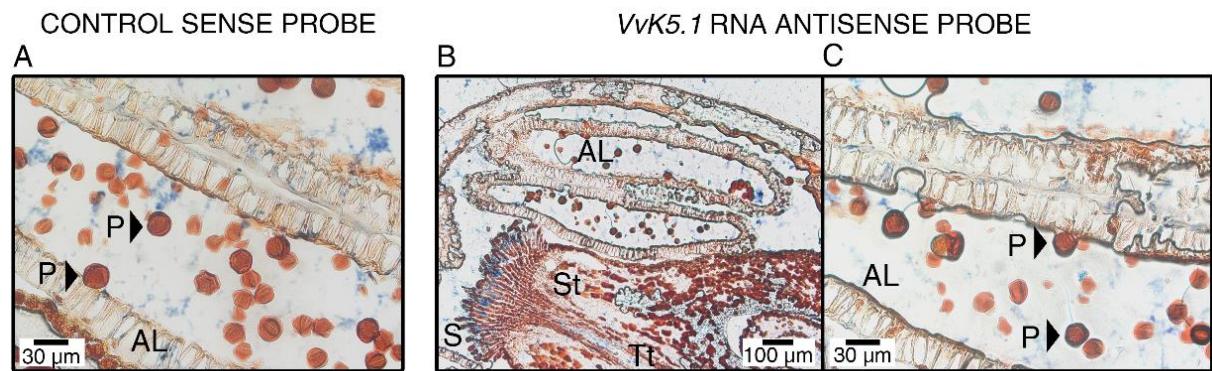

Fig. S1. *In situ* localization of VvK5.1 transcripts in flowers, showing pollen (P). Longitudinal sections hybridized with the control sense probe (A) and the *VvK5.1* antisense probe (B and C) did not show any signal in pollen. P, pollen; AL, Anther locule; S, stigmas; St, style; Tt, transmitting track.
