Data

Data available: Yes

Data types: Deidentified participant data

How to access data: Data sharing statement: Data available: Yes

Data types: Deidentified participant data that underlie the results reported in this article (texts, tables, figures, appendices). How to access data: Request from contact author (wilfleyd@wustl.edu) When available: Beginning 12 months following article publication; no end date. Supporting Documents Study protocol, statistical analysis plan.

When available: beginning date: 09-01-2020

Supporting Documents

Document types: None

Additional Information

Who can access the data: Researchers whose proposed use of the data has been approved by the PIs of the project.

Types of analyses: If requests are within the scope of the research team to support so that appropriate analyses can be conducted, a data sharing agreement will be established between the institutions (and investigators) requesting and holding the research data.

Mechanisms of data availability: Proposals and request for data should be directed to the contact author. A data sharing agreement will also be established.
