

Supplementary data

Supplementary Figure 1
Uncropped images related to Figure 3C

Figure S1. Uncropped bands related to Figure 3C.

Supplementary Figure 2
Uncropped blots related to Figure 3E

Figure S2. Uncropped blots related to Figure 3E.

Supplementary Figure 3

Figure S3. HUVECs and HAECs migration were detected after an incubation with supernatants collected from the indicated cells. Scale bar=100µm.

Supplementary Figure 4
Uncropped blots related to Figure 4E

Figure S4. Uncropped blots related to Figure 4E.

Supplementary Figure 5
Uncropped blots related to Figure 5D

Figure S5. Uncropped blots related to Figure 5D.
