

## S10 Fig.

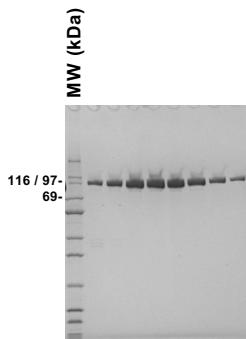

**DENV2 RdRp**

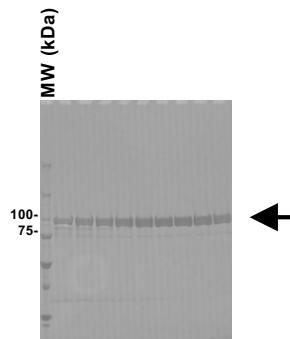

**DENV3 RdRp**

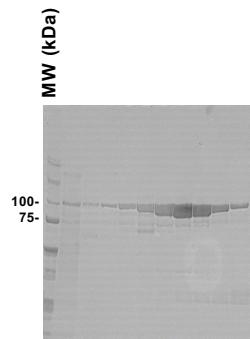

**DENV1 NS5**

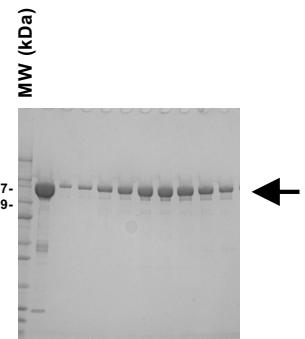

**DENV2 NS5**

**DENV3 NS5**

**DENV4 NS5**

**S10 Fig. SDS-PAGE analyses of the purified recombinant RdRp proteins and full-length NS5 proteins.** The purification processes of the recombinant DENV2 and 3 RdRp proteins are shown in the upper panels. The eluted fractions of the full-length NS5 proteins from Superdex200 are shown in the lower panels. The gels were stained with Coomassie Brilliant Blue.
